CEO PEKKA ELOHOLMA

In the last quarter of the year, we reached growth both organically and through acquisitions. We had strong organic growth in net sales and our utilization rate remained on a good level.

Additionally, we succeeded in our sales work as our order book reached yet another record high at the end of the financial year. Our cash flow was also strong during the fourth quarter.

In the last quarter of the year, we reached growth both organically and through acquisitions.

We had three strategically significant acquisitions towards the end of the year. Sitowise acquired HVAC engineering specialist Livair Oy and structural engineering and consultancy specialist Insinööritoimisto Jorma Jääskeläinen Oy. In early 2022, we finalized the acquisition of VRT Finland Oy's business, which covers condition studies of structures below and above the surface of the water.

The market for built environment continued to pick up during the rest of the year. The market situation was favourable for every business area of Sitowise – for designing buildings and infrastructure as well as for the digital solutions related to them.

Especially rail infrastructure was in key role during the past year. Sitowise is part of designing significant rail projects, such as the Crown Bridges, Vantaa light rail and One-hour Turku Rail Link.

The travel time from Helsinki to Tampere should also take an hour, as Sitowise is designing the fast railway line as part of Suomirata.

The last quarter of the year was significant for Sitowise also regarding personnel growth. We reached the milestone of over 2,000 employees, which is a result of successful acquisitions as well as our good employer brand. Meaningful work and satisfaction with supervisor work and leadership invite to both join and stay at Sitowise.

Our management team was strengthened in November as Jonas Larsson began his duties as the head of Sitowise's operations in Sweden. Together with the personnel in Sweden, Jonas will focus on driving acquisitions as well as the integration of the acquired companies, developing the business, expanding the clientele, and prepares to launch the Sitowise brand in Sweden during 2022.

In January 2022, Sitowise's Board of Directors appointed Heikki Haasmaa as the new CEO. He takes office in early May 2022. Heikki brings a versatile experience from a global listed company. He brings knowhow of international business development in one of the most successful publicly listed companies in Finland, and a broad understanding of the new possibilities in digital solutions.

I am proud of Sitowise, and that I got the opportunity to lead this company forward on its exciting growth journey. As a publicly listed company, Sitowise is now facing a new Nordic growth path, for which we have laid a strong foundation together during recent years.

OUTLOOK, GUIDANCE, AND FINANCIAL TARGETS

MARKET OUTLOOK

The stable growth in the demand of design and consulting services to create sustainable societies is supported by megatrends such as urbanization, renovation backlog, sustainability, and digitalization.

The market began and has continued to pick up since 2021, and Sitowise expects the market to grow in all of the Group's business areas. However, the exceptional situation in Europe due to Russia's military action against Ukraine could contribute to uncertainty in European financial markets and lead to decreased economic activity.

GUIDANCE

Sitowise Group estimates that both net sales and adjusted EBITA in euros will increase compared to 2021.

LONG-TERM FINANCIAL TARGETS

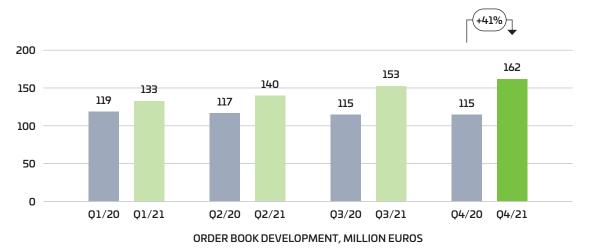

The Board of Directors of Sitowise Group has set the following long-term financial targets:

- Growth: Annual net sales growth of over 10 percent, including acquisitions;
- Profitability: Adjusted EBITA margin of at least 12%;
- Leverage: Net debt / adjusted EBITDA should not exceed
 2.5x, except temporarily in conjunction with acquisitions; and
- **Dividend policy**: Sitowise targets paying a dividend corresponding to 30–50% of net profit.

THE GROUP'S FINANCIAL DEVELOPMENT

EUR million	2021	2020	2019	2018
The Group's net sales	179.3	160.1	143.0	125.7
The Group's adjusted EBITA	21.1	20.6	15.5	14.5
% of net sales	11.8%	12.9%	10.8%	11.5%

THE GROUP'S ORDER BOOK

The market began to pick up by the turn of the year and continued to do so throughout the year. The record-high order book was positively affected also by Sitowise's active sales work and the completed acquisitions. The Group's order book increased by 6% compared to the third quarter of 2021. From the end of last year, the order book increased by 41% to EUR 162 million.

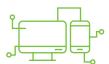

SITOWISE'S BUSINESS AREAS

The services of the **Infrastructure** business area cover a wide range of urban development needs in diverse areas: infrastructure, transport and mobility, urban development, environment and water, and the construction of infrastructure. Urbanization supports the investment needs of municipalities and cities in particular, and the business area's most significant client segment is the public sector, which accounts for almost 70% of revenue.

The **Digital Solutions** business area focuses on digital solutions for mobility and the built environment as well as consultancy services that support these fields. These services cover client-driven information system development, ready-made product solutions, analytics, information management and visualization, and expert and consulting services. The business area also includes digital solutions for traffic and infrastructure in Sweden.

Sitowise's operations in **Sweden** are organized as their own business area, excluding digital solutions. In Sweden, Sitowise provides design and consulting services in the following areas: structural engineering, building services engineering and consulting for buildings and real estate, infrastructure and building services engineering related to it, and geotechnical design.

Share of the Group's net sales

NET SALES IN OCTOBER-DECEMBER

The Group's net sales increased during the last quarter of the financial year 2021 by 19% from the comparison period. The increase was primarily a result of the acquisitions made at the end of the comparison year and during this year, but about a third of the increase was a result of the strong organic growth from Infrastructure, Buildings and Digital Solutions business areas.

NET SALES IN JANUARY-DECEMBER

The Group's net sales increased in January–December by 12%. The increase was primarily a result of acquisitions made at the end of last year and the beginning of this year. Regardless of the increase in the number of personnel, organic adjusted net sales remained at the comparison period's level. This was due to the timing of holidays and especially due to the unusually high utilization rate during the comparison period's second quarter, as majority of the time was spent on customer projects after shifting to remote work. Sitowise's listing process also temporarily reduced the utilization rate during the first quarter this year.

Earnings per share (EPS), EUR *)	0.08	1.56	0.22	9.69

^{*)} Not comparable because of the changes in number of shares due to the initial public offering.

PROFITABILITY IN OCTOBER-DECEMBER

The **adjusted EBITA** increased with the net sales growth by 43%, despite of the comparison period's unusually low costs, which were caused by i.e. temporary work pension discounts. Expenses affecting comparability amounted to EUR 0.4 (0.9) million. The expenses related primarily to acquisitions.

The **operating profit** increased by 76% due to the net sales growth and lower non-recurring expenses.

The **result before taxes** was mainly affected by financial expenses, which amounted to EUR -0.8 (0.5) million. Financial expenses also included unrealized foreign exchange losses as a result of the revaluation of SEK-denominated internal loans.

The **earnings per share (EPS)** have been calculated with a non-comparable number of shares due to the listing during the first quarter.

PROFITABILITY IN JANUARY-DECEMBER

Due to the strong last quarter, the financial year's **adjusted EBITA** increased 2% from the comparison year. During the last quarter of the year, especially net sales growth from acquisitions and organic growth strengthened EBITA – despite of the comparison period's temporary work pension discounts and the lower utilization rate of the first half of 2021. Therefore, the relative profitability for the full year was lower than in the comparison period. EBITA adjustments amounted to EUR 2.6 (1.1) million. The adjustments related primarily to acquisitions.

The **operating profit** decreased by 10% mainly due to acquisition expenses affecting comparability.

The **result before taxes** was affected by financial expenses, which amounted to EUR -6.1 (-2.4) million and included – in addition to normal interest expenses that decreased from the comparison period – both listing expenses and unrealized foreign exchange losses as a result of the revaluation of SEK-denominated internal loans.

The **earnings per share (EPS)** have been calculated with a non-comparable number of shares due to the listing during the first quarter.

FINANCIAL POSITION AND CASH FLOW

Equity attributable to owners of the parent company was EUR 114.7 (111.5 on 30 September 2021) million.

EUR million	31 Dec 2021	30 Sep 2021	30 Jun 2021	31 Mar 2021	31 Dec 2020
Cash and cash equivalents	19.4	9.3	9.7	9.1	15.5
Interest bearing debt, total	50.2	50.2	39.7	39.6	72.0
Interest bearing debt, current	1.0	0.5	0.5	0.0	3.3
Interest bearing debt, non-current	49.2	49.7	39.2	39.6	68.7
Equity ratio, %	46.0%	47.8%	47.8%	46.0%	30.2%
Net debt	30.9	40.9	29.9	30.5	56.6
Net debt / EBITDA, adjusted	1.4x	2.0x	1.5x	1.4x	2.6x
Gearing, %	26.9%	36.6%	27.7%	29.3%	84.6%

The listing and the related refinancing strengthened the Group's equity ratio and reduced gearing at the end of the first half-year period. In the fourth quarter, the company's liquidity improved and gearing decreased, especially due to strong operative cash flow

Cash flow from operating activities before financial items and taxes was EUR 14.0 (12.2) million during the fourth quarter. The increase from the comparison period was mainly due to the improved profitability of the business, while changes in working capital remained at the level of the comparison period.

Cash flow from investing activities in October–December decreased to EUR -2.2 (-16.3) million, mainly due to higher acquisitions during the comparison period.

Cash flow from financing was EUR -1.0 (5.4) million in the fourth quarter, mainly consisting of lease liability payments. In the comparison period, Cash flow from financing was mainly affected by loan withdrawals and reinvestments to the company related to acquisitions as well as dividend payments.

The consolidated balance sheet total at the end of December was EUR 249.8 (233.6 on 30 September 2021) million. At the end of the financial year, goodwill in the balance sheet amounted to EUR 135.2 (133.9 on 30 September 2021) million. No indications of impairment exist.

BUSINESS REVIEW: BUILDINGS

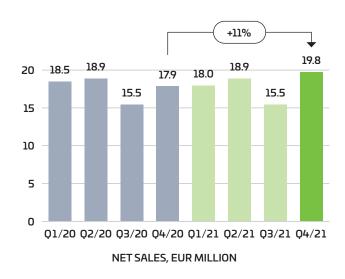

The **Buildings business area**'s net sales increased during the last quarter by 11% to EUR 19.8 (17.9) million in comparison to last year. The business area's share of the Group's net sales was approximately 39 (42) %.

The business area returned to the path of organic growth during the end of the year. Additionally the order book grew due to won tenders. The business won significant small and medium scale projects. Simultaneously the government sector's share of the order book increased and rose to a major role.

The business area's number of personnel developed favourably during the latter part of the year. An additional boost came from strategic acquisitions. Sitowise strengthened its position in Tampere (Finland) as Insinööritoimisto Jorma Jääskeläinen Oy was acquired. The business area's HVAC expertise was complemented through Livair Oy . In addition, two earlier acquisitions were successfully merged into Sitowise during the fourth quarter.

The Buildings business area returned to the path of organic growth during the end of the year.

BUSINESS REVIEW: INFRASTRUCTURE

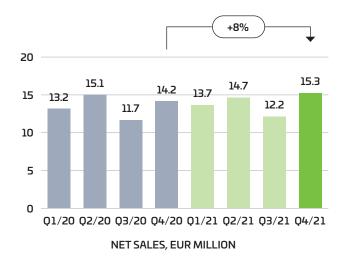

The **Infrastructure business area**'s net sales increased in the fourth quarter by 8% to EUR 15.3 (14.2) million in comparison to last year. The business area's share of the Group's net sales was approximately 30 (33) %.

Infra's net sales growth was mostly organic. Respectively the business area's order book continued to grow during the fourth quarter. Majority of the projects in the order book – such as Crown Bridges and Vantaa light rail – are multiannual projects, which means that the order book isn't expected to grow with the same pace during the next quarters.

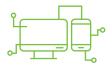

At the turn of the year, the business area gained special expertise by acquiring part of VRT Finland Oy's business, which covers 3D construction inspections and the processing and utilisation of 3D data for condition studies of structures below and above the surface of the water.

Majority of the projects in the order book — such as Crown Bridges and Vantaa light rail — are multiannual projects.

BUSINESS REVIEW: DIGITAL SOLUTIONS

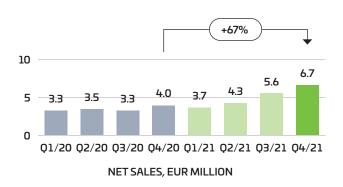

The **Digital Solutions business area**'s net sales increased in the fourth quarter by 67% to EUR 6.7 (4.0) million in comparison to last year. The business area's share of the Group's net sales was approximately 13 (10) percent.

The net sales growth was accelerated by the 2021 acquisitions of Infracontrol, Sweetlakes and MSDI. The favourable net sales development was a significant achievement, as Digital Solutions has grown faster than the general IT market.

The business area's sales activity and order book remained on a good level during the fourth quarter. Throughout the year Digital Solutions gained new private sector clients e.g. from wind power and forestry companies. As for the public sector clients, the framework agreement with the City of Helsinki continued to positively impact the order book during the fourth quarter. In addition, Digital Solutions consulted municipalities and The Finnish Infrastructure Agency about building 5G connections. Another noteworthy project was the sustainability index developed for MuniFin, which the business area completed by the end of the year.

Digital Solutions has grown faster than the general IT market.

BUSINESS REVIEW: SWEDEN

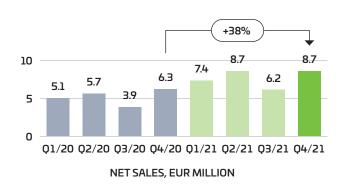

The operations in **Sweden** increased the net sales in the last quarter by 38% to EUR 8.7 (6.3) million in comparison to last year. The business area's share of the Group's net sales was approximately 18 (15) %.

Comparing to the rest of the market, Sitowise's operations in Sweden were stable and continued to pick up during the fourth quarter. The head of Swedish operations Jonas Larsson took up his post in November and is driving the integration process of all Sitowise's companies in Sweden under the same brand, with aligned reporting, ERP systems, and shared support functionalities. The roadmap for Sitowise in Sweden also includes increasing the company's visibility as a local contender as well as a prominent client and employer brand during 2022.

Significant projects during the fourth quarter included Forskaren, the new life science centre in Stockholm, where Sitowise is responsible for the building's structural engineering. Also worth mentioning is Keyplant AT550 – comprising of two modular buildings with packaging lines, new laboratory, and office space – designed for the end client MSD (Merck) in Austria. This is just one of several Sitowise's projects with Key Plants, who deliver turnkey production and laboratory modules for the life sciences industry.

The roadmap for Sitowise in Sweden also includes increasing the company's brand visibility during 2022.

SUSTAINABILITY

In December 2021, Sitowise's Board of Directors approved the Group's new sustainability program covering the period up to 2025. Sitowise's vision of being the industry's most responsible partner set the frames for the program, which was built around four goals that can be measured. The most important thing in the program was to set clear sustainability goals and indicators for them. The sustainability program applies to all Sitowise employees and requires developing operations on every level of the organization.

The goals of the sustainability program 2025 are:

Sitowise is carbon neutral in 2025

Sitowise is the most equal workplace with best employee wellbeing in the industry

Sitowise aims for sustainable economic growth

Sitowise actively contributes to make the industry more sustainable

This new sustainability program focuses especially on setting clear sustainability goals and indicators that we can use as guidance in our work. The program examines sustainability by analysing all the aspects of the ESG agenda: environmental responsibility, social responsibility, and good governance.

The program is based on a materiality assessment, for which Sitowise conducted a comprehensive preparatory study encompassing the current state of the company's sustainability work, the suitability of widely used sustainability frameworks to Sitowise's operations, and the views of the stakeholders' – especially the personnel and clients. In addition, the sustainability program aims to anticipate the impact of the upcoming national and EU level legislative change.

The material assessment, the goals, and the indicators are available on Sitowise's website at www.sitowise.com/sustainabilitu-sitowise/sustainabilitu-goals.

The sustainability tool – introduced in spring 2021 and developed by Sitowise – reached 34% in all new projects in Finland that began during fourth quarter. The goal is to have all the Group's projects to utilize the tool.

During the review period, Sitowise also conducted a taxonomy assessment of its business, which will be reported for the first time as part of the 2021 annual report.

CORPORATE GOVERNANCE

BOARD AUTHORIZATIONS

After the initial public offering and the issuance of options, the company has the following authorizations granted by a unanimous resolution of the shareholders on 3 March 2021:

The Board of Directors has been authorized to decide on a share issue as well as the issuance of option rights or other special rights entitling to shares within the meaning of Chapter 10, Section 1 of the Finnish Companies Act in one or several lots. The authorization includes both the issuance of new shares as well as the transfer of treasury shares. The total number of shares to be issued shall not exceed 3,500,000 shares, and the issuance of shares and of special rights entitling to shares could also be carried out in deviation from shareholders' pre-emptive rights (directed issue). The Board of Directors has been authorized to decide on the acquisition of the company's own shares. Based on the authorization, the total number of shares to be acquired may not exceed 3,500,000 shares. However, the company together with its subsidiaries cannot at any moment own more than 10 percent of all the shares of the company. The Board of Directors

decides on the manner of acquiring own shares, and derivative instruments, among others, may be used in the acquisition. Based on the authorization, own shares could be acquired at a price formed in public trading on the date of the repurchase or otherwise at a price formed on the market. Furthermore, the acquisition of shares could also be carried out in deviation from the shareholders' pre-emptive rights (directed acquisition). Only the unrestricted equity of the company could be used to acquire own shares on the basis of the authorization. The authorizations will be effective until the end of the next Annual General Meeting, however no longer than until 30 June 2022.

In June and December 2021, the Board of Directors decided under the current authorization to issue 250,000 new company shares per each directed issue to the company itself, a total of 500,00 shares. The Board of Directors decided to issue 218,323 own shares in directed issues related to acquisitions during June, July, November, and December. At the end of the financial year, 2,781,677 shares remained of the Board of Directors' authorization.

BOARD OF DIRECTORS' DIVIDEND PROPOSAL

The Board of Directors of Sitowise Group Plc proposes to the Annual General Meeting to be held on 20 April 2022 that a dividend of EUR 0.10 per share be paid based on the balance sheet to be adopted for the financial year ending 31 December 2021, and that the remaining portion of the distributable funds be retained in non-restricted shareholders' equity.

The dividend will be paid to a shareholder who is registered in the company's shareholders' register held by Euroclear Finland Oy on the dividend record date 22 April 2022. The Board of Directors proposes that the dividend will be paid on 29 April 2022.

On the date of the dividend proposal 2 March 2022, the registered number of the company's shares is 35,665,927. The aforementioned number of shares includes 186,145 treasury shares which are not entitled to dividend. As a result, the proposed dividend would total EUR 3,547,978.20.

On 31 December 2021, the distributable funds of the parent company Sitowise Group Plc were EUR 109,854,282 including EUR 9,657,719 profit for the period. No material change have taken place in the Group's financial position after the balance sheet date. In the opinion of the Board of Directors, the proposed distribution of profits does not risk the solvency of the company.

RISKS AND UNCERTAINTIES

The significant risks and uncertainties related to Sitowise Group's business include operational and damage risks, and strategic and financial risks, to which the Group's financial performance is vulnerable. The Group's risk assessment is based on an annual survey that was conducted during the financial year 2021, and its results have been discussed in the Group's Board of Directors, management team as well as business areas. Sitowise Group's risk management process and responsibilities are described on the Group's website at www.sitowise.com.

As for the operational risks, in the Sitowise Group's personnel risks the employee retention of the current specialists, how the specialists cope with, and the availability of new specialists are emphasized. Sitowise's business is based on skilled personnel, and talented professionals are a key factor in securing profitable growth and business. The long-lasting remote work caused by the COVID-19 pandemic is a risk for employee retention and engagement to the Sitowise Group. Sitowise Group's operational risks also include risks related to project work. Risks also include damage risks such as IT system and cyber security risks.

Sitowise Group's strategic risk is that the planned growth based on corporate acquisitions will not materialize. That could happen if suitable acquisition targets are not available, acquisitions cannot be made at financially reasonable valuation level or acquisitions involve liabilities that cannot be considered in the purchase price. Sitowise Group's strategic and financial risk is that financial market uncertainty or rising interest rates will lead to higher financing costs and reduced availability (adequacy, timeliness, and favourable terms). That is a risk because Sitowise finances its

business and investments with cash flow and debt financing, and needs external financing to implement its growth strategy.

Since March 2020, Sitowise Group has been particularly careful in assessing its potential financial risks due to the COVID-19 pandemic. The listing and the refinancing in connection with it strengthened the Group's liquidity which has also been strengthened by monitoring trade receivables and cash flow more intensively. Uncertainties caused by general economic developments and changes in market conditions are business risks of the Sitowise Group. The COVID-19 pandemic and new virus variants may continue to contribute to the uncertainty in the global economy and global financial markets. Further, the current exceptional circumstances in Europe due to Russian war activities towards Ukraine may contribute to the uncertainty in the European financial markets. Both may lead to a decline in economic activity for example resulting in reduced or delayed investments and projects. . The company does not have offices in Russia, Belarus, or Ukraine, nor export to these countries. The set new sanctions and the changed operating environment outside the scope of sanctions because of the Russian military actions – as well as counter sanctions – may create uncertainties that cannot be assessed thoroughly at the time of publication of this financial statements release.

Many of the risks associated with Sitowise Group and its business are characteristic of the business and typical in the industry. The risks are described very comprehensively in the listing prospectus of 12 March 2021 (available on our website www.sitowise.com) and they still form a set of current risks.

SEASONALITY

The seasonal variation of Sitowise's business is affected by the monthly allocation of the annual working days, which in turn is affected by the timing of public holidays (e.g. Easter and Christmas) and employee vacation periods. In addition to this, due to seasonal fluctuations in business, the second half of the year has historically been stronger than the first half. However, 2020 was also exceptional in this respect, with the second quarter producing a very strong result as employees shifted to remote working, the amount of sales work decreased, holidays were postponed due to COVID-19 measures, and sick leave days were reduced. These factors served to increase the number of billable hours, which was reflected in both net sales and profitability. The Group's net sales and profitability are generally the lowest in the third quarter due to the summer holidays.

NOTES TO THE FINANCIAL STATEMENTS RELEASE

This Financial Statement Release has been prepared in accordance with IAS 34 Interim Financial Reporting. This release should be read in conjunction with the 2020 consolidated financial statements prepared in accordance with IFRS. All figures in this Financial Statement Release are group figures. All presented figures have been rounded and consequently the sum of individual figures may deviate from the sum presented. The figures in this Financial Statement Release are based on Sitowise Group's audited 2021 financial statements, which will be published with the Annual report during week 13.

The explanatory part of this release describes the effects of the COVID-19 pandemic on the Sitowise Group in more detail. Otherwise, the key uncertainties related to decisions made by the management requiring discretion, management's estimates as well as key topics requiring discretion are the same as in the 2020 financial statements.

The Group has analyzed the final agenda decision on accounting configuration and customization costs of cloud computing arrangements (IAS Intangible Assets) issued by the IFRS Interpretations Committee in April 2021 and concluded that it doesn't have a material effect on the accounting principles applied to the costs of deploying cloud services.

Loans from financial institutions consist of a floating rate bank loan. A term loan of EUR 50 million has been drawn from the financing agreement, but no other facilities are in use. The Group met all covenant conditions during the review period.

4. GUARANTEES AND CONTINGENT LIABILITIES

Guarantees and contingent liabilities didn't change significantly during the fourth quarter and the company had bank guarantees in total of EUR 2.6 million at the end of the financial year.

5. SHARES

Number of shares used in calculating Earnings per share

Due to the IPO, the earnings per share for the first quarter have exceptionally been calculated with the number of shares outstanding on March 31, 2021. The diluted number of shares takes into account the shares of the personnel issue and other share issues, which have been unregistered at the end of the financial year.

	10-12/2021	10-12/2020	1-12/2021	1-12/2020
Number of shares	35,415,927	1,257,532	35,415,927	1,257,532
Number of shares, average	35,415,927	1,264,700	35,290,804	1,265,355
Diluted number of shares	35,665,927	1,265,224	35,665,927	1,265,224
Diluted number of shares, average	35,440,384	1,272,392	35,333,200	1,273,047

6. RELATED PARTY TRANSACTIONS

In connection with the IPO in March a long-term incentive program, i.e. an option program, was established. A cost effect of the incentive program has been recognized in the amount of EUR 161 thousand during the financial year.

The company did not have any other significant and unordinary related party transactions during the financial year.

7. FINANCIAL AND ALTERNATIVE KEY FIGURES

Since the publication of the IFRS financial statements for 2019, Sitowise has reported some alternative key figures that do not comply with IFRS standards. The calculation of alternative key figures does not take into account items affecting comparability, which are different from ordinary business operations, in order to show the financial result of the underlying actual business. The alternative key figures are intended to improve comparability and are not a substitute for other IFRS-based key figures.

The alternative key ratios to be reported are adjusted EBITDA, EBITA, adjusted EBITA and Net debt / EBITDA (adjusted). Adjusted EBITDA and adjusted EBITA exclude material items that are not part of ordinary business activities, but which affect comparability.

Details of items affecting comparability and reconciliations of alternative key figures are provided in Note 9.
